How does this go?

1

We chat about why and how you would like to be photographed.

Let's talk about your desired environment, possible props, or maybe you want to share the spotlight with someone else. This is our essential first step to creating your perfect experience.

2

We schedule a wardrobe review via video so I can help you select the right outfits to compliment your session.

On the day of your shoot, you'll be ready and excited to spend a few hours being pampered by my team and me, as I coach you through various poses and beautiful expressions to capture all the nuances that make you uniquely captivating.

3

The Portrait Reveal

Within 15 days of your session we'll review your images together, via an online gallery over zoom.

You'll get to see all your beautiful portraits, choose your favorites ones and decide on the prints and products that you'd like to display in your home.

What you purchase is always entirely up to you!

Our photoshoots are designed to make our clients feel like rockstars in their own lives.

Before & After shots and post session interview:

If you're game, I'd like to do a before and after shot for my website. And possibly a post session interview to showcase your story in my blog and on social media.
